ance Notes on Codes and Abbreviations" appearing at the begin-  
ning of each regular issue of the PCT Gazette.

(54) Title: PHARMACEUTICAL COMPOSITION OF AMLODIPINE MALEATE HAVING ENHANCED STABILITY

(57) Abstract: The present invention relates to a coated particle of amlodipine maleate and a pharmaceutical composition for car-  
diovascular disease (CVD) comprising the coated particle of amlodipine maleate. The pharmaceutical composition of the present  
invention has stable bioavailability due to sufficient dissolution rate and prevents decomposition reaction of amlodipine to thereby  
being formulated with formulation-stability equal to or higher than amlodipine besylate under long storage.
